Learning all there is to know about budget & finance can feel daunting. However, by being proactive and seeking out resources, you can gain a solid understanding of the financial processes and systems at UC San Diego. You can request that any legacy or Oracle PO be closed via Services & Support ticket. If you need to close any POs to lift their processing nonPO payments, and checking invoice status. This course will be especially valuable for individuals responsible for departmental purchases who want to further their understanding of buying on campus.

This course includes hands-on instruction on the use of Oracle Procurement & Payables. It focuses on topics such as shopping for and purchasing goods and services, searching across UC San Diego requisitions and POs, closing POs, and processing nonPO payments. You will learn how to use the PO requisition process, how to create and close POs, and how to manage the procurement process. You will also learn about the different types of POs and how to use them effectively.
