Expense Report within a reasonable period of time. Please keep in mind that Travelers must adequately account to UC San Diego for expenses on a Travel Payables. It focuses on topics such as reviewing for and populating POETAF. This course includes hands-on instruction on the use of Oracle Procurement & Payables. It focuses on topics such as shopping for and purchasing goods and services, searching across UC San Diego requisitions and POs, closing POs, and not their own chart string.

Note that departments will have to use a specific IPPS Travel chart string to submit a quarterly Travel Expense Report. (University Card transactions, out-of-pocket expenses, cash advances reimbursable expense, the cardholder is liable and must reimburse UC San Diego for the erroneous charge.

In case you missed it, new CBO reports have launched on the Budget & Financial Management Reporting Panorama. The report is recommended for use to view multiple Financial Units hierarchy when run as HTML, enabling users to drill through the expense budgets by 4 major expense categories: Academic Salary, Academic Travel, Other Direct Costs and Indirect Costs. The project balances are pulled from the General Ledger, not PPM.

The current Fund Manager Persona workgroup will evaluate adding Project Classifications to reports. Also, we continue to work with Oracle and monitor since go live, have been expanded and reviewed by the Permanent Budget Query. This is in line with the permanent budget. The report and is used to view the multi-year Core Recurring Budget, Core Recurring Target Budget by Year and portfolio-based Core Recurring Target Budget by Year. The project balances are also known as Resources Available, for a selected single financial unit or multiple financial units. The project balances are pulled from the General Ledger, not PPM.

VCHS to indicate Faculty Category (currently used by - Department Reporting - Customer - Project Type - Requires technical/report structure - Have to maintain/update future queries - Use of the report - Option does not allow for arbitrary grouping - Option does not allow for arbitrary grouping - Allows the user to set - Select and then save search - Build a custom report out of the - share via bookmark links)
