LIFE ➥ Michael Childress and his Creative Inquiry team delivered the message of marine conservation for our community and broader society.

Goal #1: Inspire and prepare the next generation to solve tomorrow's biological challenges through innovative teaching, mentoring and signature experiences.

Goal #2: Enable integrative biological discoveries of the 21st century, and deliver nationally and internationally competitive excellence in research and scholarship.

Goal #3: Encourage individual growth, achieve equity and social justice and inspire biological science literacy through mentoring, teaching and community engagement.

Goal #4: Inspire and prepare the next generation to solve tomorrow's biological challenges through innovative teaching, mentoring and signature experiences.

Regional Medical Center.

David M. Southerland, Zoology '77

Dr. Ted Swann, Biological Sciences '97

2020 Fran and Frederick Hamerstrom Award.

Jim Belthoff, Zoology Ph.D. '92

Association of Fish and Wildlife Agencies.

Felicia Sanders, Zoology M '00

Libby Baxley, Zoology ‘80

Stephanie LaPlaca, Ph.D. student in environmental toxicology; Felicia Sanders, Zoology M '00; Libby Baxley, Zoology '80

New graduate fellowship in honor of the late environmental toxicologist Stephen Klaine and awards funding for graduate student research.

Each fall, our students, alumni, faculty and staff. Email us with any questions/comments/suggestions at BiolSci@clemson.edu

Thank you for your continued support and engagement with us. Our faculty, staff and students have worked hard to fulfill our strategic goals.

The last year has been interesting and challenging for everyone. Our faculty, staff and students have worked hard to fulfill our strategic goals.

We hope you are enjoying the spring and new life coming forth.

Greetings from Biological Sciences at Clemson!

Note from the Chair
