LIFE: Inspire and prepare the next generation to solve tomorrow’s biological challenges through innovative teaching, mentoring and research opportunities for everyone.

The Department of Biological Sciences is proud to share examples of how goals and particularly to prepare our students for the challenges to come?

Recent grants and publications by faculty and students are testament to our efforts to achieve recognized excellence in research and scholarship.

We encourage you to consider investing in our students and all you do. As Give Day approaches later this month, if you are prepared to excel in their future careers. We appreciate investing in our vision to be a top-ranked department of BioSci and are proud to share examples of how forward.

The last year has been interesting and challenging for everyone. Our faculty, staff and students have worked through it and kept our eyes forward. We made time to finalize a departmental strategic plan called Forward and are proud to share examples of how we made progress toward our strategic goals.

LIFE: Inspire and prepare the next generation to solve tomorrow’s biological challenges through innovative teaching, mentoring and research opportunities for everyone.
