Greetings from Biological Sciences at Clemson!

Note from the Chair

The last year has been interesting and challenging for everyone. Our faculty, staff and students have worked together to get through it and kept our eyes forward. We made time to inspire and prepare the next generation to solve tomorrow’s biological challenges through innovative teaching, mentoring and opportunities for success.

We provided a number of opportunities to achieve this goal and several of our alumni were highlighted for their successes.

Recent grants and publications by faculty and students are testament to our efforts to achieve 21st century and achieve nationally and internationally recognized excellence in research and scholarship.

We encourage individual growth, achieve equity and encourage individual growth, achieve equity and promote a climate of inclusive excellence.

As we approach Give Day, will you join me in giving back to our department to help us achieve life integrative biological discoveries of the 21st century, and achieve nationally and internationally recognized excellence in research and collaboration.

Michael Childress and his Creative Inquiry team delivered the message of marine conservation to the local community and broader society.

Regional Medical Center.

David M. Southerland, Zoology ‘77

Dr. Ted Swann, Biological Sciences ‘97

Jim Belthoff, Zoology Ph.D. ‘92

Association of Fish and Wildlife Agencies.

Felicia Sanders, Zoology M ‘00

Libby Baxley, Zoology ‘80

Stephanie LaPlaca, Ph.D. student in environmental toxicology; Felicia Sanders, Zoology M ‘00; Libby Baxley, Zoology Ph.D. ‘80; and Libby Baxley, Zoology Ph.D. ‘80.

Stephanie LaPlaca

New graduate fellowship in honor of the late environmental toxicologist Stephen Klaine and awards funding for graduate student research.

Each fall, ourervice to the professional development of our students, alumni, faculty and staff. Email us with any questions/comments/suggestions at BiolSci@clemson.edu.
