Oracle Redwood Launch

We are excited to announce the Oracle Redwood Theme launch. This launch is the UI change that users have been communicating about over the past several months. It is a major step forward in Oracle’s transformational journey. The results of the Last Year’s Redwood Theme Pilot have been evaluated and inform the Redwood Theme launch. The Oracle Redwood Theme is designed to provide a more intuitive, user-friendly, and visually appealing experience for users. It is also intended to improve the overall usability of the Oracle application.

What is changing?

The Oracle Redwood Theme is a major UI change. It includes a new look and feel, a new color scheme, and a new design approach.

- New color scheme: The theme uses a new color palette that is designed to be more visually appealing and easier on the eyes.
- New design approach: The theme uses a more modern and intuitive design approach that is intended to improve the overall usability of the Oracle application.
- Dark mode: The theme supports dark mode, which is a mode in which the application is displayed in a dark color scheme.

What is not changing?

No changes to your ability to perform tasks or functions within OFC
No changes to the underlying database
Dark, global header

What is the Oracle Redwood Theme launch timeline?

The Oracle Redwood Theme launch will begin in January 2022. The launch will be rolled out to all users over time, with a timeline that is intended to minimize disruption to users.
