How to Resolve POETAF/COA Failed Validation Errors in Concur

Reminder:

Before the respective fiscal close cutoff dates.

This false validation error is usually due to an incorrect Fiscal Period or Account Code entered on the expense report. To correct any errors, please check your Concur document entries to ensure that the Account Code and Fiscal Period are validated against data in Oracle. If your Concur document was returned due to a COA or POETAF validation error, the resolution will depend on how the document is valued against data in Oracle. If your Concur document was returned due to a POETAF validation error, the resolution will depend on how the document is valued against data in Oracle.
