Note From Parent to Parent

As 2024 comes to a close and the year 2025 is right around the corner, I can't help but reflect on this past year and the connections we've made throughout it. The Disability Network has made new connections with partners in our community, and we continue to build on the connections we've already formed. I appreciate our counterparts who serve families and are working to make our community a better place for all who live in the valley.

I would also like to reflect on the personal connections made with individuals and families that have come through our doors - whether it was just one phone call or sharing dinners and family triumphs or frustrations. I have seen strong parents advocating for their children, and have seen gaps in services where it seemed like there was really nothing to offer beyond listening and offering a short term solution. I am grateful for each person that has crossed my path in the past year and the opportunity I have to serve our community through the Disability Network.

As I look toward 2025, I will work to make sure anyone who comes to us whether it be through a phone call, email, text or in person, feels heard, accepted, and knows they have an ally in us. Our mission is to improve the quality of life for individuals and their families by empowering and connecting families, offering inclusive environments, educating the community, and raising disability awareness. We highlight that people with disabilities have much to offer our community.

Sincerely,

Angie and Ysabel (Parent-to-Parent Coordinators)

Spotlight On: Breakfast With Santa

Parent to Parent and SOAR hosted our first Breakfast with Santa on December 14th at Blue Mountain Community Church. We are so blessed to have a partnership with the church as they have such a great space to rent with a huge kitchen. The space looked like a winter wonderland with Christmas themed blow ups, photo couch with a tree and many decorations to make it cozy.
