How do I do all that?

First thing is first, you'll need to log into CrimsonConnect:

Once you find a club you'd like to request to join, click the checkbox next to it and then click "Join" at the bottom of the page. This will send a notification to the groups' officers so they can add you to the membership roster.

In the "Groups and Organizations" button under "My Links" on that same main landing page, you can peruse those to see if we've correctly identified your involvement, and if not, you can find and join other groups using the "Groups and Organizations" button under "My Links".

We recommend adding "my clubs" in the center section of the CrimsonConnect landing page. You can also use the search function to find clubs you're interested in and request to join them. If you don't see the club you're interested in, you can request to start a new club.

According to the "Groups and Organizations" button, you can request to join a club at any time. This means there's a chance we either missed your name on a roster, or that we added your name to a roster that you're not currently a part of. If you're a member of a club, your name will automatically be added to the roster.

Once you've joined a club, you'll be able to see the club's events, activities, and news on the CrimsonConnect landing page. You can also interact with other members of the club by joining their discussions and participating in their events.

If you're interested in volunteering, you can learn how to find and join groups in CrimsonConnect. We'll be back in touch as we get closer to the date of the event.
