KORET KIDS KAMP UPDATE

With an extremely heavy heart, careful discussions and taking into consideration all safety precautions, the Koret Health & Recreation Center has made the very difficult decision to forgo the reopening of our in-person Kids Camp sessions for Summer 2021.

As you know, the Coronavirus Pandemic has had a profound impact nationally and locally and has continued to challenge us as a community. The Koret Center remains closed at this time, and we are currently still housing the Kaiser Mass Vaccination Clinic through the end of June.

The decision to forgo our Kids Camp was made so that we can focus our efforts on preparing for the Koret Center Facility reopening and welcoming back the return of our USF Students, Faculty & Staff this Fall as the University does intend for the return of in-person instruction.

We recognize this is not the outcome many of you were hoping for, and each of our families will be deeply missed this summer. We have and will always remain committed to fostering a strong community, enriching the lives of your child(ren), and continuing to create a positive experience for all in the future.

As always, we are so incredibly thankful for all our Koret Kids Camp families and when the time is right, we can’t wait to serve the community again! We continue to send nothing but well wishes to you and your loved ones and appreciate all of your patience and support as we navigate this difficult time together.
