

Our Community Response - November 1, 2021

Loyola's Land Acknowledgement Statement

*The Loyola University Chicago community acknowledges its location on the ancestral homelands of the Council of the Three Fires (the Ojibwa, Ottawa, and Potawatomi tribes) and a place of trade with other tribes, including the Ho-Chunk, Miami, Menominee, Sauk, and Meskwaki. We recognize that descendants of these and other North American tribes continue to live and work on this land with us. We recognize the tragic legacy of colonization, genocide, and oppression that still impacts Native American lives today. As a Jesuit university, we affirm our commitment to issues of social responsibility and justice. We further recognize our responsibility to understand, teach, and respect the past and present realities of local Native Americans and their continued connection to this land.**

Transportation Choices and Environmental Policy

Loyola is asking you for 10 minutes to complete a [Commuting Options Survey](#). It will play an important part in shaping future actions to improve traffic congestion, parking, pedestrian safety, bicycle routes and transit schedules.

Loyola's urban setting provides a wealth of transit options including train, bus, bicycle, pedestrian, and car each of which informs security, benefits, urban planning, and environmental policies. [Campus Transportation](#) supports our employees and students, no matter which mode of transit they choose. The transportation

committee uses this information to make recommendations that balance the needs of the individual with the good of the community. Your input is very important to us as we seek to provide efficient, convenient, and safe transportation options for students, staff, and visitors.

Please click [this link](#) to begin the survey. The survey will close November 30, 2021.
