The University Chaplaincy is a dynamic hub supporting religious, spiritual, ethical, and cultural life for all members of the Tufts community. We provide pastoral care, support religious and philosophical communities, educate about spiritual practices, and connect students with resources to explore their own beliefs. We also offer support for students facing mental health issues through our Counseling and Mental Health website.

We are currently offering a variety of events and programs for the fall semester. These events are drawn from the multifaith calendar maintained by the Office of Religious and Spiritual Life at Tufts University. We encourage all members of the Tufts community to participate in these events and explore the rich diversity of spiritual and cultural traditions.

We are particularly excited about the upcoming programs on Buddhism, interfaith engagement, and racial justice. These programs will be led by experts in their fields and will provide opportunities for students, staff, and faculty to deepen their understanding of these important issues.

We are also partnering with other departments and organizations on campus to offer a range of programs and events. These include the Protestant Student Association, the Hindu Chaplaincy, and the Humanist Chaplaincy. We encourage all members of the Tufts community to explore these programs and get involved in the life of our campus.

We are committed to creating a welcoming and inclusive community where all members feel valued and supported. We encourage all members of the Tufts community to join us in our efforts to promote diversity, inclusion, and equity on campus.

We hope that you will join us in these programs and events and continue to support the University Chaplaincy. Together, we can create a dynamic and vibrant community that reflects the diversity and richness of the human experience.
