Mason Impact: the change you want to see in the world

Mason Impact is the social esteem that students get from the Mason experience. It is the desire to make a difference in the world and to be a part of a community that values education and social responsibility. Students who participate in Mason Impact are motivated by a desire to contribute to society and to make a positive impact on the world. This impact can be seen in a variety of ways, such as through service learning, volunteer work, and community service. The goal of Mason Impact is to create a community where students feel empowered to make a difference and to be a part of something greater than themselves.
