On May 6, Mason's Board of Visitors approved a $1.249 billion budget that keeps undergraduate tuition flat, with modest increases in graduate tuition and student fees. Student aid will increase by at least 10 percent, and targeted investments will be made in student services and staff and faculty support. Read more.

Localities wary of road dividends to recoup for planet’s future

Professor Thomas Lovejoy, a world-renowned expert and author of several books on the importance of biodiversity, told Mason students and alumni that the global ecosystem’s future is at stake. “It is not enough to do what we can; we need to do what must be done,” Lovejoy said.

Message from the Dean

Sunday Morning Gathering

By Fernando Miralles-Wilhelm

“Go out and change the world.” “Be the change.” Some may recognize this charge, originally offered by Mahatma Gandhi, who in 1947 told India’s freedom fighters, “You must be the change that you wish to see in the world.”

“I offered this directive to prospective graduates at the Monday, May 10 College of Science mini degree celebration event.”

Sustainability in Action course teaches students to put sustainability in action

Professor Colleen Kearney Rich and her Mason students have become incredibly busy making a difference on and off campus. During Earth Month they worked on their Sustainability Transformation Action Plan. The required Sustainability Transformation Action Plan course (EVPP 480) was created to help students understand how to incorporate sustainability into their personal and professional lives.

I attended by about 500 students, Kelly Knight.
