Collaboration Between Childhood Advocates and Lawmakers

Yields Monumental Opportunity for Colorado’s Children and Families

In the News

In our latest effort to help Coloradans get back to the communities we love, Gary Community Investments has partnered with the Corporation for National and Community Service (and others) to launch Colorado Works, a new initiative that will provide approximately 3,500 offers of service to local organizations. These opportunities will be filled by more than 800 AmeriCorps and Senior Corps members with laptops and internet access as they work with the State of Colorado to conduct COVID-19 contact tracing. But AmeriCorps and Senior Corps members won’t be the only ones helping nationwide. AmeriCorps and Senior Corps members will be working alongside other organizations, including local public health agencies, to identify and engage individuals who are able to assist with the contact tracing efforts.
