Term Faculty Community Conversation

April 8, 2021

Research Development Services will hold the first of a planned series of lunch and learn seminars and Q&A for faculty following the Research and Scholarship at Mason orientation. Join the first lunch and learn, “You Won a Grant. Now What?”

April 9, 2021

Mason's first-ever Barry M. Goldwater Scholar

Jackie Luu, a junior Environmental Science and Psychology dual major, is Mason's first Barry M. Goldwater Scholar. Jackie is the 10th Mason student and the first environmental science student to be awarded a Barry M. Goldwater Scholarship.

This week's Goldwater Scholar profile highlights the connection between Martian dust storms, waves, and atmospheric loss. Sharing the story behind the story, Mason alumnus and current graduate student, Erdal Yiğit, is interviewed by John Hollis.

Deutsche Welle features Mason Scientist in mini-documentary about Mars

The German international broadcaster, Deutsche Welle, interviewed Erdal Yiğit for a mini-documentary about Mars. Yiğit recently published a study highlighting the connection between Martian dust storms, waves, and atmospheric loss. Sharing the story behind his research, Yiğit is interviewed by John Hollis.
