A torn out clip from the seminar:
September 30, 2021
Harvard Radcliffe Fellowship application: Science, Engineering, and Mathematics

"Climate Change: Science, Politics and Ethics."

September 9, 2021
Harvard Radcliffe Fellowship application: Humanities, Social Sciences, and Creative Arts

"...the impacts on our Commonwealth and the world, and possible responses."

Department of Atmospheric, Oceanic, and Earth Sciences Professor

"...animals also known as mouse-deer."

Professor, PhD student studying systematics

"...the career opportunities beyond academia contribute to the development of physics identity and belonging for women in physics."

Professor, Director of PhD Program,

"...by Fernando Miralles-Wilhelm"

The phrase 'nice to see you' takes on new meaning. I was fortunate to meet faculty, some for the first time. When they were offered a treat, some thanked me and assured me it was not necessary; others insisted that I accept it. Some said it was a small gesture but was a nice surprise. Others shared that it was refreshing to see and hear human kindness and act of kindness.

"...people's eyes showed a mixed sense of excitement and apprehension as I offered the cookie."

HC Lim
