Join Tisch College for a conversation with author, speaker, and advocate for criminal justice reform and victims of sex trafficking, Cyntoia Brown-Long. Born to a mother battling addiction, Cyntoia Brown-Long had a difficult childhood marked by physical and emotional trauma. At 16 years old, she became a victim of sex trafficking and was later arrested for killing a man who solicited her for sex. She was tried as an adult despite her age and was sentenced to life in prison without parole for 51 years. After 10 years in prison, during which she obtained two university degrees, got married, and embraced religion, Cyntoia appealed for clemency. Her appeal triggered an outpouring of support and sparked a national debate about child trafficking and the juvenile justice system. Tennessee Governor Bill Haslam commuted Brown-Long’s original sentence to 15 years, and she was released from prison in August 2019. Cyntoia wrote a memoir of her journey, entitled Free Cyntoia: My Search for Redemption in the American Prison System. She currently works with advocates for juvenile sentencing reform through the Foundation for Justice, Freedom and Mercy, which she founded with her husband. Follow the conversation at #CyntoiaAtTufts.

Valles, this workshop provides a space to tell the stories of our moving bodies, from them, generating writing that strives to transcend the bureaucracy that reduces our experiences to a series of government questionnaires. Participants will be encouraged to write themselves fully alive with all the nuance, joy, and heart that we are so often deprived of by news media and political talking heads. Using a mix of writing exercises and performance techniques, we hope to cobble stories that attest to our present living and project a future where we can be together beyond the words 'type or print in black ink.' **Participate in Research on Food Security among Tufts Undergraduate Students**

In recent years, research has highlighted the prevalence of food insecurity in higher education settings in the United States. Yet, no research has yet been conducted at Tufts to assess the status of food security on our own campus. The Department of Health Promotion and Prevention seeks to study the extent to which food insecurity exists among undergraduate students and understand how Tufts undergraduate students on the Medford and Fenway campuses...
access and afford food. Ultimately, we hope to offer recommendations for how Tufts can ensure that all students have access to healthy, affordable, and sustainable food.

We invite you to participate in an anonymous survey to help us with this research project. Responding to this survey will help us better understand the current food environment of Tufts University among undergraduate students. The survey consists of multiple-choice questions. It should take approximately 10-15 minutes. All of the responses are confidential and participation is voluntary. You will be asked to provide your consent prior to taking the survey.

The survey is available at this link: https://tufts.qualtrics.com/jfe/form/SV_cINZErtBHvGFUx.

We greatly appreciate your time and support for this research. Participants will have the option to enter a drawing for to win one of twenty $50 JumboCash prizes. Should you have any questions about the research or the survey please do not hesitate to contact Madeleine Clarke at madeleine.clarke@tufts.edu or Ian Wong at ian.wong@tufts.edu.
