

KEEPING UP with the Kantarians

Director's Corner

As I type this on September 2nd - Labor Day in the US and Canada - I definitely sense the pace of activity picking up, not just in our digital identity and personal data industry, but across the spectrum of the public and private sectors, to say nothing of politics! What an interesting next few months this will be.

The exciting news that I was portending in last month's blog has been delayed by a few weeks. Rest assured that it is coming, so please watch out for it on the website and on social media during this month.

Spotlight on ID.me

A long-standing Kantara member, [ID.me](#) is an industry leader in secure online identification verification and the first Credential Service Provider to be recognized under Kantara's NIST 800-63 rev.3 Class of Approval. Its technology is used by more than 13MM individuals and 350 partners, including federal and state agencies, healthcare organizations, financial institutions, retailers, and nonprofits.

Read the Spotlight below to learn more about [ID.me](#).

IAWG Supports Identity Communities Globally

Kantara Initiative @KantaraNews · Sep 15
 Kantara Initiative's Identity Assurance work group prepared our response to the @DCMS @GDSTeam #digitalidentity #CallForEvidence. Check out our response here: bit.ly/34J25Hc

This response is the latest in a list of volunteer contributions to 'friends and foe' in our mission to 'lift all boats' in the identity and privacy digital ecosystems we collectively serve. That is the essence of Kantara's ethics and ethos in action. [@KantaraNews](#) keeps you updated on the media's interest in the response to DCMS, but you can see all of them below.

Gary Flood, a writer for Think Digital Partners, released an article earlier this week on our response. [You can read his article here.](#)
