Subject: UC San Diego Financial Accounting Program Update

The UC San Diego Financial Accounting Program is a comprehensive financial accounting program that offers training at a basic to intermediate level. This program is intended to establish foundational knowledge that is consistent across the UC San Diego staff members who are in finance and accounting roles.

The UC San Diego Financial Accounting Program application is currently active! **If you are interested, the application is open until next Friday, September 17th.**

We also recently updated the application platform from Google to **Qualtrics** to support more interested applicants and remove difficulties accessing the form. The application process and new link can be found here. Additionally, we are looking to support as many course interests as possible, so keep an eye out for a question that offers the **option to select your interest in completing the entire program or select courses**.

You have one week left to apply!
