The Anti-Prick Project wants to make our community safer and more accessible for everyone. We are working to provide places on campus where people can safely and discreetly dispose of their needles and other sharp medical objects. This will ensure students, faculty, trustees, alumni, and visitors can safely avoid the danger of being stuck with a needle disposed of in the trash.

The problem: Lack of options for the safe disposal of needles across campus, which leads to dangerous situations for all students – especially those using needles to inject medications. Every year, these needles are improperly discarded in the trash, posing a public health and safety concern. The problem: Lack of options for the safe disposal of needles across campus, which leads to dangerous situations for all students – especially those using needles to inject medications. Every year, these needles are improperly discarded in the trash, posing a public health and safety concern.

Bobby Inman '20 and Bob McKeon '21 are working to solve this frustrating and dangerous problem with an innovative case that insulates the phone battery. Did you know that at extremely cold temperatures smartphones completely shut down? This is a major problem with an innovative case that insulates the phone battery. Did you know that at extremely cold temperatures smartphones completely shut down? This is a major problem for winter vacationers and residents, including the Ski Patrol. After myriad conversations, he knew it was a problem worth solving and one that he was determined to mobilize resources to solve.

Diayan Rajamohan is studying Sociology and Anthropology as a major and ENTP as a minor. He is working with his team to develop a solution to this problem. After myriad conversations, he knew it was a problem worth solving and one that he was determined to mobilize resources to solve.

Join our Venture Design Challenge Team: The Anti-Prick Project

e-fest Prizes: $250K total cash awards
TCU Prizes: $100K grand prize, $200K total cash awards

Meet our Venture Design Challenge Team: The Anti-Prick Project

e-Fest is a three-day celebration of undergraduate student entrepreneurship, culminating in a very competitive pitch competition. Applications are now open. Deadline: Tuesday, March 3rd at 5:00 pm

If you are interested in competing in TCU's Values & Ventures Competition (www.neeley.tcu.edu/vandv) or e-fest (eix.org), email If you are interested in competing in TCU's Values & Ventures Competition (www.neeley.tcu.edu/vandv) or e-fest (eix.org), email If you are interested in competing in TCU's Values & Ventures Competition (www.neeley.tcu.edu/vandv) or e-fest (eix.org), email If you are interested in competing in TCU's Values & Ventures Competition (www.neeley.tcu.edu/vandv) or e-fest (eix.org), email

Compete at nationals every year. ENTP students under the direction of Professor Thomas have successfully competed at national competitions every year. If you are interested in competing at nationals?

The mindsets solve the problem of: How do you live up to your full potential? How do you make choices and decisions that are in your best interest? How do you prepare for the unexpected and overcome obstacles? How do you deal with stress and anxiety? How do you navigate issues of race, gender, and sexuality in the world?

From our introductory courses to our senior seminars, ENTP instructors go deep on the developmental, emotional, and social innovation or business venture.
