The Anti-Prick Project wants to make our community safer and more accessible for everyone.

Rajamohan's '21 solution is to install safe, secure repositories in the high-use bathrooms throughout campus. This will ensure students, faculty, trustees, alumni, and visitors can safely dispose of needles and syringes, preventing injury and the spread of infectious disease. Those most at risk are our janitorial staff.

Minor: Legal Studies and Philosophy
Year: Junior
Team Member: Diayan Rajamohan
Venture type: Social Innovation Venture

Bobby Inman '20 and Bob McKeon '21 are working to solve this frustrating and dangerous problem. Inman, a psychology major, had a personal connection to the issue, as he lost a dear friend to a needle-related injury at the beginning of his freshman year. Inman turned to McKeon, a senior of ENSP with an equivalent passion for social innovation, and the two began brainstorming potential solutions.

Venture type: Social Innovation Venture

Thermobor came out of an experience Inman had on a ski trip to Sun Valley when unbeknownst to him his phone shut down for several hours. He began researching this problem and learned that it was the bane of winter vacationers and residents, including the Ski Patrol. After myriad conversations, he knew it was a problem worth solving and one that he was determined to tackle. Inman knew that if he could develop a solution, it could change the lives of millions of winter sports enthusiasts, college students, and the general public.

Year: Senior
Venture type: Business Venture

Bobby Inman teamed up with Inman to focus on planning and product development for Thermobor. McKeon, who is a part of the Coast Venture Capital Network, provided Inman with crucial advice and expertise. McKeon is a mentor at Lake Forest College and has helped many students launch their ventures.

The Lake Forest College Venture Design Challenge is a unique opportunity for students to develop their own business ideas and gain valuable experience in the process. It is the only student entrepreneurship competition in the region that is open to students from all across the region.

The Venture Design Challenge gives Lake Forest College students a unique opportunity to hone their entrepreneurial skills while working with a dedicated team of mentors and advisors. The challenge is open to students from all across the region and takes place on Saturday, February 29th from 9:30 am – 1:00 pm in the Lily Reid Holt Chapel.

Students from around the world pitch ideas for conscious capitalism ventures that make a profit while also solving a problem. Winners take home thousands of dollars to help make their ventures a reality.

Five speakers approached the topic from a variety of vantage points, making for a lively, thought-provoking afternoon. As an audience, we were inspired, challenge, and offered new perspectives on the role of women in the world.

On Saturday, February 7th, the college hosted its annual TEDx talk to a sold-out crowd.

Hello game changers, designers, dreamers, you need to dig deep and turn your wounds into wisdom.
