“Turn your wounds into wisdom.”

What do you learn in ENTP?

What students learn in ENTP courses endures for a long time, and that serves as a solid foundation from which our students can build additional knowledge and make real change in the world.

Constructive ideas for how we might solve problems in our own lives, in our communities, and in the world.

From our introductory courses to our senior seminars, ENTP instructors go deep on the link theory to practice. The competition joins a growing list of resources available to our students to activate the mindsets and demonstrate why and how they are essential for anyone trying to launch a venture funding, you need to activate your resilient mindset. When you are too scared to try because you might face rejection or ridicule or whatever, you need to activate your fear and shame resilient mindsets.

If your venture fizzles or goes belly up, you need to activate your failure and shame resilient mindsets. What do you learn in ENTP?

If you're struggling with any of these questions, you need to activate your resilient mindset.

How do you manage struggles and tough times? How do you make good, sound decisions? How do you refocus dysfunctional beliefs?

Success only if they learn about and begin to apply the right mindset. What do you learn in ENTP?
