to facilitate information sharing among researchers, practitioners, and relevant local, national, and international stakeholders.

The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and best practices in sustainability.

The meeting will also study how new tools and methodologies can be developed to address the pressing sustainability and resilience challenges.

The 64th Annual Meeting of the Comparative and International Education Society (CIES) will be held in Seattle, Washington, from February 10 to 13, 2020.

Conference participants will address the theme of "The Epochal Precarity of Globalization." The conference will bring together scholars from around the world to discuss the implications of globalization for education, society, and the environment.

The meeting will feature keynote addresses, panel discussions, and poster presentations on a wide range of topics, including sustainability, social justice, and global governance.

For more information, visit the conference website at: www.cies.org

DEB also encourages interdisciplinary proposals that cross conceptual boundaries and methodologies. The program aims to support the high-impact research-transition funding requests aligned with the U.S. Department of Energy's goals.

The State's Bureau of East Asia and Pacific Affairs wishes to notify the U.S. community of its commitment to supporting research and education initiatives in the region.

The National Science Foundation's (NSF) Directorate for Biological and Environmental Research, Fusion Energy Sciences, High Energy Physics, and Social Science and its relationship to policy issues of the country.

The NSF supports the research and development of young professionals to promote career and graduate education.

The Office of Sustainability (OoS) at George Mason University is organizing a lecture series on urban topics. The inaugural lecture will be given by Ben Levine, Executive Director of MetroLab Network. The series will focus on urban sustainability and its role in creating active communities.

We'll use the survey data to build a calendar of events, initiatives, and programs for U.S. communities.

Gladwell" Talking to Strangers": An Evening with Malcolm Gladwell

The event will be held on February 26, 2020, at 6:00pm - 7:15pm. We can't wait to see the wonderful work you're doing! Thank you!

Most recently she has served in several roles at the National Science Foundation (NSF) since 2015, including as Program Director for the NSF Engineering Research Centers Program (ERC), the NSF Cyber-Enabled Discovery and Innovation Program (CDI), and the NSF Social Science and its relationship to policy issues of the country.

We are excited to announce that Dr. Nichols will report to Dr. Aurali Dade, who served as the inaugural Executive Director of the Office of Sustainability (OoS) until November 2018.

Dr. Nichols will report to Dr. Aurali Dade, who served as the inaugural Executive Director of the Office of Sustainability (OoS) until November 2018.

Dr. Nichols brings over 20 years of experience in sustainability research and policy development, having previously served as Director of Sustainability Research and Education Working Group; and oversaw NSF's Advisory Committee for Social, Behavioral and Economic Sciences.

Dr. Nichols is also the Director of the NSF Center for the Advancement of Science and Understanding (CASNet), which aims to foster interdisciplinary research on the social and economic impacts of advances in science and technology.

Dr. Nichols has served as a Mirzayan Science and Technology Policy Fellow with the National Academy of Sciences, a National Science Foundation (NSF) Fellow in Sustainability Science, and a National Science Foundation (NSF) Graduate Research Fellow.
