The 64th Annual Meeting of the Comparative and International Education Society

The 64th Annual Meeting of the Comparative and International Education Society will be held in February 2020. The meeting will feature presentations on a wide range of topics, including education policy, international development, and social justice. Attendees will have the opportunity to network with leading scholars and practitioners in the field of comparative and international education.

International Symposium on Knowledge and Capacity for the Water Sector

The International Symposium on Knowledge and Capacity for the Water Sector will be held in March 2020. The symposium will bring together experts from around the world to discuss the latest research and developments in water sector knowledge and capacity building. Participants will have the opportunity to exchange ideas and best practices, and to explore partnerships for future research and implementation.

Smart Cities Partnership

The Smart Cities Partnership is a collaborative effort between the University of Colorado Boulder and the City of Boulder, aimed at developing innovative solutions to urban challenges. The partnership will be kicking off a series of events in March 2020, including a series of guest lectures and workshops.

Dear Colleague Letter: Supporting Transition of GSS Fellows

GSS Fellows are embedded within an international sustainability research project for 10 weeks during the 2019-2020 academic year. The letter aims to support the transition of GSS Fellows and provide information on opportunities for further research and development.

Global Sustainability Scholars Program

The Global Sustainability Scholars Program is a 10-week research program for individuals interested in sustainability research. The program provides opportunities for fellows to work on interdisciplinary projects and collaborate with experts in the field.

Annual Paper Competition

The annual paper competition will be held in April 2020. The competition invites area high school, college, and graduate students to submit papers on sustainability-related topics. The competition provides a platform for young researchers to showcase their work and receive feedback from experts in the field.

Funding Opportunities

The University of Colorado Boulder and the City of Boulder are currently accepting applications for funding opportunities. Interested individuals can apply through the grants.gov website.

Join George Mason University's Urban Issues Lecture Series

George Mason University is organizing a lecture series on urban topics to create an active interdisciplinary environment. The series will feature speakers on a variety of topics, including urban sustainability, smart cities, and urban policy.

50th Anniversary of Earth Day

Earth Day will be celebrated on April 22, 2020. The event aims to promote awareness and action on environmental issues. Participants can join the celebration by participating in local events or by volunteering for sustainability projects.
