ISE NEWSLETTER

February 10, 2020

To facilitate information sharing among researchers, practitioners, and relevant local, national, and international stakeholders, the 6th International Symposium on Knowledge and Sympoiesis will be held on March 18, 2020, in Fairfax, Virginia. The symposium aims to bring together experts to discuss the latest developments in implementation science and its role in strengthening institutional capacity to enhance water security. The meeting will also study how new technologies and methodologies can support the implementation of water policies.

The Division of Environmental Biology (DEB) of the National Science Foundation (NSF) is seeking proposals for research in the areas of Ecosystem Sciences, Evolutionary Biology, Nuclear Physics, and Environmental Engineering Program. The funding opportunities are available for Computer and Information Science and Engineering (CISE) and the Office of Science, Department of Energy.

The Center for Climate and Security at George Mason University is organized a panel discussion on Climate Change on May 27-29, 2020. The panel aims to educate the Mason community about the impacts of climate change and strategies for addressing it.

Dr. Cioffi-Revilla was honored as a 2019 Fellow by the American Association for the Advancement of Science (AAAS) for his distinguished research contributions. He has been a professor at George Mason University since 1999 and has made significant contributions to the field of social science and its relationship to policy issues of global significance.

ASEAN Smart Cities Partnership
