Capacity Development to Implementation Science.

The African Development Bank

Capacity for the Water Sector

Developments in implementation science can strengthen institutional capacity to enhance

Conference participants will address the theme of

Security Threat Profile of Global Climate Change

Integral to achieving these goals is a fundamental understanding of the transport and

Nuclear Physics.

Following program areas: Advanced Scientific Computing Research, Basic Energy Sciences,

FY 2020 Solicitation for the Office of Science

For Computer and Information Science and Engineering (CISE) together with the Department of

Through a

program. To apply follow this link:  https://www.gsscholar.org/apply

The GSS Fellows Program

The topics will be focused on food and agricultural issues related to sustainability and

PI: 

Co-PI: 

Funding source: National Science Foundation

XMMNewton

accretion onto supermassive black holes with NuSTAR and

Funding source: University of Colorado Boulder

Primary Investigator (PI): 

Randomized Field Experiment at Violent Crime Hot Spots

Funding source: National Science Foundation

Primary Investigator (PI): 

Development of passive sampling methodologies for

Funding source: National Science Foundation

Primary Investigator (PI):

Earth and Space Research International Office at NASA

Funding source: NASA
