

# Budget & Finance Weekly Digest

October 17th, 2023 | 143rd Edition

## Announcements

### UCPath Projects: November Release

This November will mark the release of a few highly anticipated projects in the UCPath system:

1. [Salary Cost Transfer Redesign](#)
2. [Hire Pilot](#)
3. [Chartstring Web-Service Validation](#)

For a summary of the new features, along with links to the upcoming training sessions, review the November Release project space [here](#). Be sure to add the upcoming [UCPath November Release Office Hours](#) to your calendars.

Read the full UCPath project status alert [here](#).

### Testers Wanted for Changes to Payroll Projections

There will be major changes made to payroll projections that will go into effect on November 9th. These changes need to be thoroughly tested, so we are asking anyone who can commit to rigorous testing, to please do so in UAT.

To see the changes, reports must be run in the Cognos QA environment with the HANA-QA connection. Use these links for these reports: [Expanded Project Summary](#), [Faculty & Researcher Dashboard](#), [Project Management Dashboard](#). If you do not have access, please submit a [Services & Support case](#) indicating your interest in testing. Submit testing feedback by ticket as well, with 'Payroll Projection Testing' as your subject line.

Summary of changes:

1. GSR positions now project into the future. GSR-NO REM positions will be projected in future summers through the budget period end date, and GSR-TUIT REM positions are projected in future academic years, even if currently on short work break. If a GSR on short work break has an active TA position at 0.49 FTE or higher, the GSR positions will not be projected.

- 2. Postdoc positions now ignore the job end date and project through the funding end date or budget period end date.
- 3. TA positions now project tuition and fees on a quarterly basis, not tuition remission.

### Cost Transfer Withdraw Issue

We have identified an issue where withdrawn cost transfers are still being processed or completed. It appears to be happening when withdrawn from the Things to Finish > Created by Me list. Oracle is already working on the issue and we will provide more information as soon as it's known.

If you need to withdraw a pending cost transfer, **do not** do so from the Things to Finish list. Instead navigate to Projects & Awards > Costs > Tasklist (paper icon) > Manage Project Costs> search for the transaction number(s)> navigate to the Adjustment History tab and highlight the pending row before selecting "Cancel Adjustment" .

Navigate to the Adjustment History tab to cancel pending adjustments:

## **UC San Diego Travel: Before You Go**

**Thursday, October 19 @ 9:00am - 11:00am**

The course will include an in-depth explanation of topics covered in the Concur Travel and Expense eCourse. This course will be especially valuable for employees who travel or book business travel and want to further their understanding of travel preauthorization and UC San Diego's instance of Concur Travel booking tool. Intended for travel arrangers, delegates, travelers, and financial managers who are familiar with Travel Policy G-28 and would like to learn about more advanced Concur Travel terminology and concepts.

Topics Covered:

- Review the process to request travel preauthorization via Concur Request
  - Be able to request a new University Travel & Entertainment Card
  - Learn how to book travel via Concur Travel
- 

## **UC San Diego Travel: Reporting Expenses**

**Thursday, October 19 @ 1:00pm - 3:00pm**

Intended for: Those involved in the process of trip reconciliation for business travel at UC San Diego, including travelers, preparers (Concur Delegates) and approvers.

The course provides an overview of UC San Diego travel policy and procedure, including summarized guidelines, resources, and information about online tools.

In this course, you will learn about Concur processes for prepaying travel and claiming expenses after the business trip occurs in accordance to Travel Policy G-28.

## Topics Covered:

- Arranging for prepayment of fees, such as registration
  - Making deposits, such as for hotels
  - Reporting expenses
  - Claiming traveler reimbursement
- 

### **Financial Operations Office Hours**

**Friday, October 20 @ 9:00am - 10:00am**

### **New Report Release: Fixed Assets Dashboard**

The Fixed Assets Dashboard is a comprehensive tool that offers a range of reports with information from the new Fixed Assets Module. This dashboard includes:

- Fixed Assets Inventory Report
  - Identify assets by department, custodian, or location and track custodial responsibility
  - Review value and useful life of assets, summarized by specific departments
- Fixed Assets Purchasing Report
  - Review purchase-related details, including invoices and purchase orders linked to assets, and gain information into purchasing history
  - Track costs and expenditures related to specific assets
- Fixed Assets Depreciation Report
  - Tracks monthly depreciation calculations and evaluates accumulated depreciation for financial assessment

- Determine asset useful life and remaining life for effective financial planning, forecasting, and compliance with accounting standards
- Fixed Assets Retirements and Disposals Report
  - Review and track the value and retirement dates for assets that have been disposed of
  - Assess the financial impact of retired assets through cost and net book value details

### **General Ledger Panorama: Financial Pivot Tools**

Financial Pivot Tools, a set of reports previously only available to Internal Controls & Accounting, are now available on the General Ledger Panorama. You can use these tools to view summarized general ledger transactions over time, customized to your preference, for any combination of chartstring values, at any level of the chart of account hierarchies. A strong understanding of general ledger accounting is recommended when using these tools.

- Use the **Balance Report** to view account ending balances by month.
- Use the **Period Activity Report** to view activity by account for a specific period.
- Use the **Comparative Balance Report** to view account balances and activity by month.

For more information on the reports, including screenshots of the outputs, visit [General Ledger Panorama](#) on Blink. These reports run very slowly, so we recommend [customizing and saving](#) the reports for the way you want them to appear.

### **Enhancement Release: General Ledger Panorama - General Ledger Transaction Details**

The General Ledger Balances table on the General Ledger Transaction Details page now includes a column for Accounting Period End Date, enabling users to pivot and sort downloaded results chronologically.

### **Enhancement Release: GL Fund Balances report**

A Project Reporting Category multi-select prompt has been added with values of “Department Portfolio” and “Faculty Portfolio”. Use this prompt to view balances summarized by fund but including only underlying projects that have been marked as Department Portfolio or Faculty Portfolio. Using this prompt will exclude any transactions on the fund on no project as well as on projects without a Project Reporting Category. Use [PADUA 2.0](#) to update the Project Reporting Category.

### **Enhancement Release: Campus User Roles report**

Prompts on the Campus User Roles report are now multi-select, enabling users to select more than one name, department, role, or purchasing authority. In addition, two new columns have been added to identify the Financial Unit and Financial Unit L4 from any workflow approver roles (i.e. Financial Unit Approver, Cost Adjustment Approver).

Special thanks to everyone who submitted enhancement requests: Douglas Carlone, Jeffrey Woods, Natalie Wolfe, Cheryl Kettnich, and Nickolaus Lekovish.
