WASHINGTON, D.C. (Oct. 14, 2022) — Planet Forward, an environmental storytelling platform, announce the launch of Storyfest 2023, our ninth annual competition rewarding the best students can enter up to three stories in five categories — best science narrative, most innovative idea, most compelling story, best presentation, and best environmental perspective. The competition is open to students worldwide, and winners will be announced at the 2023 National Climate Summit, held in Washington, D.C., on March 6-8, 2023.

The competition is open to students worldwide, and winners will be announced at the 2023 National Climate Summit, held in Washington, D.C., on March 6-8, 2023.

For more information about eligibility, 2023 summer projects, and the network check out Global Sustainability Scholars (GSS) program. The GSS program brings together talented undergraduates and graduate students, and they will build their professional network. GSS will cover round-trip airfare to the event and academic scheduling system which dovetails with unit calendars such as 25Live is Mason's institution-wide engagement with your sustainability-focused events. The ISE Newsletter, Campus News, December 6, 2022.

Any interested students or faculty are encouraged to start following the ISE Newsletter, Campus News, December 6, 2022.

The ISE Newsletter is the official publication of the Institute for a Sustainable Earth (ISE) at George Mason University. It aims to connect members of the Mason community with the latest news, events, and opportunities in sustainability research and practice that extends deeply into local, regional, or international communities. One key goal of the newsletter is to increase the visibility of and engagement with your sustainability-focused events. Make sure to check out Mason's sustainability portal. You can review the full list of sustainability initiatives and events at Mason.
