The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and pressing sustainability and resilience challenges.

If you are interested in submitting any of your current research, abstract submissions are now available. The deadline for submitting an abstract for each option is 31 March 2020.

The 8th World Sustainability Forum (WSF2020) will be held from 15-17 September, 2020. The WSF2020 will include presentations on topics such as regional, national, and international sustainability agendas.

North America will host individual webinars that will discuss the importance of ambitious state and local climate action. These webinars will be held from 1-2 April, 2020.

The Integrated Strategic Projects (ISPs) program in the United States seeks to address public health challenges. A second proposal, which is optional, would describe the applicant's ideas on how to mitigate the impact of public health challenges. The deadline for submitting an application is 31 March 2020.

The Building Resilience in the Indo-Pacific Regional Disaster Management Workshop is being held from 15-17 September, 2020. The workshop will focus on identifying and implementing strategies to improve resilience in the Indo-Pacific region.

The Special Research Grants Program - Aquaculture is accepting applications for research that aims to improve the sustainability of aquaculture systems. The deadline for submitting an application is 31 March 2020.

The Sustainable Solutions to the Plastic Waste Problem: Rethinking the Future of Packaging (2020) is accepting applications for research that aims to develop sustainable solutions to the problem of plastic waste. The deadline for submitting an application is 31 March 2020.

The Cyberinfrastructure for Sustained Scientific Innovation (CSSI) program is accepting applications for research that aims to improve the effectiveness of scientific research. The deadline for submitting an application is 31 March 2020.

The International Visitor Leadership Program is accepting applications for research that aims to improve the effectiveness of scientific research. The deadline for submitting an application is 31 March 2020.

The Developing Infrastructure and Transportation Solutions (2020) is accepting applications for research that aims to improve the effectiveness of transportation systems. The deadline for submitting an application is 31 March 2020.

The Global Health for Science and Innovation (2020) is accepting applications for research that aims to improve the effectiveness of health care systems. The deadline for submitting an application is 31 March 2020.

The Sustainable Health Care Systems (2020) is accepting applications for research that aims to improve the sustainability of health care systems. The deadline for submitting an application is 31 March 2020.

The Sustainable Solutions to the Plastic Waste Problem: Rethinking the Future of Packaging (2020) is accepting applications for research that aims to develop sustainable solutions to the problem of plastic waste. The deadline for submitting an application is 31 March 2020.

The International Visitor Leadership Program is accepting applications for research that aims to improve the effectiveness of scientific research. The deadline for submitting an application is 31 March 2020.

The Developing Infrastructure and Transportation Solutions (2020) is accepting applications for research that aims to improve the effectiveness of transportation systems. The deadline for submitting an application is 31 March 2020.

The Global Health for Science and Innovation (2020) is accepting applications for research that aims to improve the effectiveness of health care systems. The deadline for submitting an application is 31 March 2020.

The Sustainable Health Care Systems (2020) is accepting applications for research that aims to improve the sustainability of health care systems. The deadline for submitting an application is 31 March 2020.

The International Visitor Leadership Program is accepting applications for research that aims to improve the effectiveness of scientific research. The deadline for submitting an application is 31 March 2020.

The Developing Infrastructure and Transportation Solutions (2020) is accepting applications for research that aims to improve the effectiveness of transportation systems. The deadline for submitting an application is 31 March 2020.

The Global Health for Science and Innovation (2020) is accepting applications for research that aims to improve the effectiveness of health care systems. The deadline for submitting an application is 31 March 2020.

The Sustainable Health Care Systems (2020) is accepting applications for research that aims to improve the sustainability of health care systems. The deadline for submitting an application is 31 March 2020.
