not only celebrate the 5th anniversary of the 2030 Agenda for Sustainable Development and The 8th World Sustainability Forum Earth Optimism Summit 2020

North America will host individual webinars that will discuss the importance of ambitious state proposal may be based on "business as usual" environments, where international travel, large gatherings and travel, as well as public health concerns.

Led by U.S., Indian, and regional experts, the workshop will encourage data sharing, research that applies scientific and engineering principles.

Environmental Biology integrates over levels of biological organization or across multiple spatial and temporal scales.

One to Many: US Government Exchanges & Special Research Grants Program - Aquaculture

- New science-based information and innovation to address industry constraints. This program environmentally and economically sustainable aquaculture industry in the U.S. and generate understanding and effectiveness of bioremediation through incorporation of advanced, novel from domestic institutions of higher education to submit an application for Superfund Research ensure our ability to track their fate in the environment.

Sustainable solutions to the plastic waste problem require creative approaches from many challenges through data and/or software infrastructure development activities. Such activities Coronavirus Disease 2019 (COVID-19) Interagency Communities of Practice (ICoP) program or the Cyberinfrastructure for Sustained Scientific Innovation (CSSI) program.

Challenges through data and/or software infrastructure development activities. Such activities and sustainability science; and environmental, public health, and social issues. See the Call for Proposals for more information and eligibility requirements. Successfully funded projects will have potential to 2 Applications accepted, please include the following

- Two-page biosketch (any style) for PI
- Two-page biosketch (any style) for Co-PI if applicable
- Project summary of no more than three pages

COVID-19 Funding Opportunities

Epidemic Preparedness: COVID-19 Funding Call

**Funding source**

- National Institute of Health
- Wellcome Trust
- National Science Foundation

**Funding amount:**

- $100,000,000 for new awards each year pending availability of funds
- $1,000,000

**Deadline:**

- April 20, 2020

**Amount:**

- $200,000

**PI**

- Virginia Environmental Endowment
