The Institute for a Sustainable Earth (ISE) is an international organization.

To facilitate information sharing among researchers, practitioners, and relevant local, national, and international organizations, ISE has launched the ISE Newsletter.

The biweekly newsletter aims to disseminate up-to-date information on conferences, funding opportunities, and research pertaining to environmental science and sustainability. The ISE Newsletter provides a platform for researchers, practitioners, and organizations to collaborate and share knowledge.

In light of the COVID-19 pandemic, the theme for the meeting includes:

1. Health and medicine
2. Mobility

The 8th World Sustainability Forum will be held in Geneva and the UN Sustainable Development Solutions Network (UN SDSN). In light of the pandemic, the theme for the meeting includes:

- Health and medicine
- Mobility

The purpose of the Earth Leadership Hubs, structured using a convergent science approach, is to address the world's most pressing challenges.

The ISE Faculty Profiles feature Dr. Uma Reddy, who will discuss the ongoing research on the possible short and long-term implications of the pandemic crisis on human health and security.

The Office of Science of the US Department of Energy is providing funding for research in the Biological and Environmental Research, Fusion Energy Sciences, High Energy Physics, and Climate Sensitivity. The Earth Leadership Hubs, structured using a convergent science approach, at the nexus between coastal and ultimately manage Earth's natural resources for a more sustainable future.

The Center for Resilient and Sustainable Communities (C-RASC) is hosting a webinar on "Ecosystem Health, Public Health, and Human Security." The webinar will cover a range of topics, including:

- The role of ecosystems in public health
- The impact of climate change on human health
- Innovative solutions for ecosystem management

The webinar will be held on May 29, 2020. Additional information and registration details can be found on the C-RASC's website.

The College of Health and Human Services (CHHS) is accepting applications for the Civic Innovation Challenge, focusing on projects that can produce significant community impact within 12 months. The registration deadline is June 22, 2020. Applicants may request $5,000 to $100,000 in funding.

The National Environmental Education and Training Foundation is offering an opportunity to attend a webinar on "Climate Change and the Future of Work and Workplaces." The webinar will be held on June 22, 2020, at 11am - 12pm. Additional information and registration details can be found on the webinar's website.

The National Aeronautics and Space Administration (NASA) is offering a fellowship program, "Habitable Planets for Life," for early-career scientists interested in exploring the potential for life on other planets. The fellowship will be held at the NASA Goddard Space Flight Center, located in Greenbelt, MD. The fellowship duration is two years, and the position is full-time.

The US Department of Transportation is offering a fellowship program, "Combined Masters/MBA in Transportation Policy and Planning," for professionals interested in advancing their career in transportation policy and planning. The fellowship will be held at the University of Maryland's Ralph O. Peck Center for Urban and Regional Planning.

The International Baccalaureate Organization is offering a fellowship program, "IBO Fellowship," for professionals interested in advancing their career in education. The fellowship will be held at the International Baccalaureate Organization's headquarters in Geneva, Switzerland.

The US Department of Agriculture is offering a fellowship program, "National Science Foundation Graduate Research Fellowship Program," for students interested in pursuing a graduate degree in science or engineering. The fellowship will be held at the National Science Foundation's headquarters in Arlington, VA.

The National Geographic Society and Microsoft's AI for Earth Program are offering a fellowship program, "AI for Earth Innovation," for professionals interested in advancing their career in technology and sustainability. The fellowship will be held at the National Geographic Society's headquarters in Washington, DC.

The Global Innovation Fund is offering a fellowship program, "Global Health Innovation Fellowship," for professionals interested in advancing their career in global health. The fellowship will be held at the Global Innovation Fund's headquarters in London, UK.

The National Science Foundation is offering a fellowship program, "Collaborative Research: Quantifying the sea-surface response to ocean warming," for professionals interested in advancing their career in oceanography. The fellowship will be held at the National Science Foundation's headquarters in Alexandria, VA.

The Office of Science of the US Department of Energy is offering a fellowship program, "Future EarthUpdateTime," for professionals interested in advancing their career in climate science. The fellowship will be held at the Future Earth's headquarters in Geneva, Switzerland.

The National Environmental Education and Training Foundation is offering a fellowship program, "National Environmental Education and Training Foundation Fellowship," for professionals interested in advancing their career in environmental education. The fellowship will be held at the National Environmental Education and Training Foundation's headquarters in Washington, DC.

The US Department of Transportation is offering a fellowship program, "Combined Masters/MBA in Transportation Policy and Planning," for professionals interested in advancing their career in transportation policy and planning. The fellowship will be held at the University of Maryland's Ralph O. Peck Center for Urban and Regional Planning.

The International Baccalaureate Organization is offering a fellowship program, "IBO Fellowship," for professionals interested in advancing their career in education. The fellowship will be held at the International Baccalaureate Organization's headquarters in Geneva, Switzerland.

The US Department of Agriculture is offering a fellowship program, "National Science Foundation Graduate Research Fellowship Program," for students interested in pursuing a graduate degree in science or engineering. The fellowship will be held at the National Science Foundation's headquarters in Alexandria, VA.

The Global Innovation Fund is offering a fellowship program, "Global Health Innovation Fellowship," for professionals interested in advancing their career in global health. The fellowship will be held at the Global Innovation Fund's headquarters in London, UK.

The National Geographic Society and Microsoft's AI for Earth Program are offering a fellowship program, "AI for Earth Innovation," for professionals interested in advancing their career in technology and sustainability. The fellowship will be held at the National Geographic Society's headquarters in Washington, DC.
