Ecosystem Health, Public Health, and Human Security

A joint initiative of the US Department of Transportation and the US Department of Homeland Security, in collaboration with the Institute for a Sustainable Earth, the Earth Leadership Program seeks to deliver climate-conscious transportation systems across the US. The program will engage with stakeholders to co-develop models, tools, and strategies for an equitable, efficient, and sustainable transportation system.

Upcoming ISE Pandemic Webinars

- Thursday, May 21, 2020 - "Responding to COVID-19 and other Pandemics: Models for Assessing Strategies for Hospitals" - Dr. Miller-Hooks shares the capabilities of her team's models in supporting hospital readiness to COVID-19 and other Pandemics.
- Thursday, May 28, 2020 - "Air Quality and Public Health: The Future of Work and Paradigm Shift" - Dr. Uma Reddy will be covered in this session.
- Thursday, June 18, 2020 - "How Can Universities Be More Inclusive in COVID-19 Outbreaks?" - Bethany Letiecq, Jim Witte, and Ken Reinert will be discussing.

COVID-19 Funding Opportunities

- Global Innovation Fund: The Fellowship offers mid-career researchers working in the area of environmental sustainability transdisciplinary projects.
- The Civic Innovation Challenge: The fellowship offers mid-career researchers working in the area of environmental sustainability transdisciplinary projects.
- The Earth Leadership Program: The fellowship offers mid-career researchers working in the area of environmental sustainability transdisciplinary projects.

Other Upcoming Events

- The 8th World Sustainability Forum (WSF2020)
