Workplaces have been disrupted like never before. What can we learn from the sudden changes to our global society? Mason's Hopkins MASH-Pandemics Center is hosting a webinar series, “Public Policy in the Pandemic Age,” to discuss pressing sustainability and resilience challenges.

The fellowship offers mid-career researchers working in the area of environmental sustainability a unique opportunity to be part of transdisciplinary projects. Specifically, the training provided to fellows is built around a collaborative approach that values co-design with diverse stakeholders and prepares participants to develop and execute transdisciplinary projects.

The 8th World Sustainability Forum is coordinated by MDPI under the patronage of the University of Basel, the University of Geneva and the UN Sustainable Development Solutions Network (UN SDSN). In light of the COVID-19 pandemic, the forum will focus on socially and environmentally responsible science, technology, and innovation to better address the complex challenges of our world.

The Globa Innovation Fund seeks to invest in social innovations that aim to improve the lives of millions of people in the developing world. Open to funding innovations in all areas of sustainability except agriculture, the fund aims to provide opportunities of millions of people in the developing world.

The Office of Science of the US Department of Energy is providing funding for research in the area of energy and climate. The FY 2020 Solicitation for the Office of Science seeks to support Coastal Research and ultimately manage Earth's natural resources for a more sustainable future.

In the first stage (Stage 1) of the solicitation, proposals are due on May 29, 2020. Proposals accepted at anytime.

In the second stage (Stage 2) of the solicitation, proposals are due on September 30, 2020. Proposals accepted at anytime.
