May 18, 2020

The Institute for a Sustainable Earth (ISE) in Boston and the University of Basel organize the 8th World Sustainability Forum (WSF2020). This event is coordinated by MDPI under the patronage of the University of Basel. The event focuses on the Sustainable Development Goals (SDGs) identified by the United Nations (UN).

The Institute for Sustainability at Mason (ISE) and the National Science Foundation (NSF) are organizing the 8th World Sustainability Forum (WSF2020). This event will be held on May 27, 2020.

The 8th World Sustainability Forum (WSF2020) is a global event that brings together researchers, policymakers, and practitioners to address the world's sustainability challenges. The event aims to foster collaboration and networking among participants from diverse fields.

The event will feature keynote speeches, panel discussions, and workshops on a wide range of topics related to sustainability. Participants will have the opportunity to engage in discussions and exchange ideas on topics such as climate change, energy, biodiversity, and sustainable development.

The event will also include a series of workshops and training sessions. These workshops will provide participants with the opportunity to develop new skills and knowledge in areas related to sustainability.

The event is open to all interested parties, including researchers, policymakers, and practitioners from academia, government, and the private sector. Participants will be encouraged to share their experiences and expertise and to contribute to the development of innovative solutions to sustainability challenges.

The event will be held at the National Geographic Society in Washington, D.C. Registration is open to all interested parties, and early registration is recommended.

For more information, please visit the event website or contact the event organizers via email.
