research pertaining to environmental science and sustainability. The biweekly newsletter aims to bring researchers and businesses and organizations–so that, together, we can more effectively address the world’s sustainability challenges. With the help of others across the Mason community–and with other communities, policy-makers, funding agencies, and the public–we’ll work to advance the goals of the UN Sustainable Development Solutions Network (UN SDSN). In light of the unprecedented disruptions being caused by COVID-19 and other Pandemics.

The 8th World Sustainability Forum (WSF2020)

The WSF2020 is a global event to: 1) inspire, educate and inspire the world’s leaders on the critical importance of sustainability in the world today; 2) bring together leaders, practitioners, and researchers across many sectors to discuss and create solutions to the world’s most pressing sustainability-related challenges; and 3) partner with the United Nations and other key global organizations to make the WSF2020 as impactful as possible.

Global Innovation Fund

The Global Innovation Fund is a multi-year, multi-billion-dollar initiative that seeks to address the world’s most pressing sustainability-related challenges through the innovation and implementation of sustainable, scalable, and replicable solutions.
