to facilitate information sharing among researchers, practitioners, and relevant local, national, and international organizations. The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and collaboration opportunities.

The 8th World Sustainability Forum (WSF2020) is a summit that brings together leaders, experts, and innovators from around the world to tackle the challenges of sustainability in the 21st century. The forum focuses on various program areas including Advanced Scientific Computing Research, Basic Energy Sciences, and Climate Change Resilience. The Coastlines and People program is dedicated to understanding the interactions among natural, human-built, and social systems in coastal, populated areas to ensure the protection and sustainability of these environments.

The Global Innovation Fund is a program aimed at funding research and development projects that can produce significant benefits to communities and have the potential for lasting impact beyond the period of the funding. To be eligible, projects must be able to produce innovation pipeline and foster a collaborative spirit. CIVIC will fund projects that can produce benefits to communities — and have the potential for lasting impact beyond the period of the funding.

The purpose of the Civic Innovation Challenge is to deliver connected communities in the Social & Community Change (S&CC) domain designed to build a more cohesive research-to-practice pipeline for the betterment of communities and society. The challenge is to provide funding for research in the area of environmental sustainability and to support the development of tools and perspectives to help participants cross traditional disciplinary and sector boundaries.

Additional Funding Opportunities

- **CoPe Working Group**
  - **Description**: A working group is providing funding for research in the area of environmental sustainability.
  - **Funding Source**: Global Innovation Fund
  - **Contact**: is a tool for you to find others with complementing expertise and for information for the directory.
  - **Registration**: is hosting this webinar to discuss.
  - **Location**: is hosting this webinar to discuss.

- **ISEP/ISEP M&E Training and Implementation**
  - **Description**: A training and implementation program for the International Student Exchange Program.
  - **Funding Source**: National Science Foundation
  - **Contact**: is organizing a webinar to discuss.
  - **Registration**: is organizing a webinar to discuss.

- **ISEP/ISEP M&E Training and Implementation**
  - **Description**: A training and implementation program for the International Student Exchange Program.
  - **Funding Source**: National Science Foundation
  - **Contact**: is organizing a webinar to discuss.
  - **Registration**: is organizing a webinar to discuss.

- **Additional Funding Opportunities**
  - **Description**: Various additional funding opportunities are available for research and development projects.
  - **Funding Source**: Various funding sources are available, including National Science Foundation, US Department of Transportation, and Global Innovation Fund.
