

IPIGRAM (9 JANUARY 2021)

The banner has a white background with teal geometric shapes (triangles, squares, circles) and dotted patterns. At the top center is the OSGOODE logo (red circle with 'IP' and 'OSGOODE' in blue) and the text 'Intellectual Property Law & Technology Program' in black. Below this, the event title 'IP INNOVATION CLINIC CHATBOT LAUNCH EVENT' is written in large, bold, dark blue capital letters. A teal rectangular box in the center contains the date and time: '29 January 2021' and '12:30 pm - 2:30 pm EST via ZOOM'. At the bottom right, a teal arrow points to a button that says 'REGISTER HERE >>>'.

IP Regimes May Delay a Timely Delivery of New COVID-19 Vaccines

January 5, 2021 by Jin Xu

As the Northern hemisphere entered winter, the threat of COVID-19 looms even greater than before. Cold air and more time spent indoors are likely to increase the transmission of COVID-19 drastically. Many individuals and governments are putting their hope into a breakthrough on a vaccine to keep them safe. But current intellectual property (IP) regimes may hinder and delay life-saving vaccines.

In Canada, the US and the EU, a patent can be valid up to 20 years after its filing, which means that the company which develops a COVID-19 vaccine can have a stranglehold on the production and pricing of the vaccine for two decades. This can have a significant impact on the ability for most populations to receive the vaccine. With over 1.2 Million deaths and 47 Million cases globally, any delay on the implementation of the vaccine will lead to disastrous loss of life.

It's Called Fashion Law, Osgoode—Look It Up

January 7, 2021 by Eloise Somera

On November 9, 2020, the Osgoode Fashion Law Society (OFLS) hosted its annual Fashion Law Panel (virtually, of course). The panelists consisted of a range of industry experts, including the founder of the OFLS and recent graduate of Osgoode, Alessia Monastero. At this panel, attendees gained insight on what fashion law entails, how to get involved with it, and where it is predicted to go in the future.
