March 2020

*COVID-19* Human Health in Public Health

Dear Friends,

This is the first in a series of emails from Worksafe focusing on the crisis of COVID-19 and the health needs of vulnerable workers. Please sign up here if you would like to receive these emails.

We are writing to you today to introduce our COVID-19 Mutual Aid Resources, a list of resources compiled by Worksafe to help you in case you have lost your job or your livelihood has been impacted.

Worksafe, along with other California workers' rights organizations, has been providing resources to workers impacted by the COVID-19 crisis. Here are some resources we can provide:

- California Employment Rights
- Workers' Compensation
- Human Rights
- Housing Rights
- Food Security
- Healthcare
- Education
- Unemployment Assistance

In this email, we will introduce you to our COVID-19 Mutual Aid Resources. In future emails, we will focus on other issues related to workplace health and wildfires.

In the coming weeks, Worksafe will be releasing information about the new standard for Wildfire Smoke Exposure. This includes information about the new standard, how it protects workers, and what employer obligations are.

The new standard requires employers to provide respiratory protection to employees who are exposed to the dangerous smoke of wildfires.

We urge Cal/OSHA to adopt the new standard as soon as possible. Worksafe is working with the National COSH network to ensure the new standard is implemented in California.

We want to thank our partners and allies for their support during this challenging time.

Thank you,

Cheryl Wallach
Carisa Harris-Adamson

Wildfire Smoke Emergency Standard

The Worksafe Safety & Health Education Program has released a new series of educational videos about the new standard for Wildfire Smoke Exposure.

In these videos, we will introduce you to the new standard and how it protects workers.

In the coming weeks, Worksafe will be releasing a new series of videos about the new standard for Wildfire Smoke Exposure.

We encourage you to watch these videos to learn more about the new standard and how it protects workers.

Thank you for your support during this challenging time.
