The Provost Fellows Program is an integral component of the Office of the Provost’s faculty development programming. It provides a significant professional development opportunity for mid-career faculty interested in learning more about academic leadership and contributing to university-level decision making and initiatives.

The 2023-24 fellows are in the areas of teaching, leadership, and mentorship. Each fellow will help shape a high-priority university-level initiative:

- **Teaching**: fellows help UO think strategically about ways that newer teaching modalities can support student access and success across degree programs.
- **Leadership**: fellows help UO develop a rich, culturally responsive and networked-broader fellowship culture across campus.
- **Mentorship**: fellows work to strengthen the culture of leadership of UO and provide support to local leaders and unit heads.
