Message Development for the Hispanic/Latino Community

We want to collaborate with you!

We have been including prevention messaging in Spanish geared toward the Hispanic/Latino community in our local bilingual newspaper, *Tú Decides*. Last year we worked in conjunction with some of you to provide 12 months of paid advertisement in Spanish geared toward the Hispanic/Latino population. **We would like to collaborate with you to implement this regional media plan again this year.** Because of this year's increased funding, we have budgeted for 6 months of paid advertisement. We still need to cover the months of December, April, June, July and August. If you are interested in learning more about this, please reach out to us via the contact form below.

Tobacco Cessation Assessment

Currently, our work group is working on surveys for providers, partners, and stakeholders to assess the needs of our community to be able to provide a more culturally relevant tobacco cessation toolkit. The surveys will be ready by December 2022 and will run until the end of January 2023. Once the surveys are ready, I will keep you updated and we will most definitely need your help to gather data!

There is still room to join our workgroup! Our next work group meeting is scheduled for December 1st from 1:00-2:00 PM. If you would like to participate, please email Briseida Chavez - bchavez@esd123.org.

Attend one of our focus groups sessions OR fill out our survey - more details to come!
