May is Skin Cancer awareness month.  
By raising awareness of the dangers of unprotected sun  
exposure and encouraging sun-safe habits, we can  
change behaviors and save lives.

## Charity of the Month

We are proudly supporting the GJ chapter of Kiwanis International by donating 5% of our product sales for the month of May to our local chapter. Kiwanis helps improve the lives of children in need in our community. If you would like to learn more click [here](#).

## Did you know?

YOUR SKIN HAS THREE DISTINCT LAYERS.

Skin is considered an organ in its own right. It's comprised of three layers: the waterproof top layer, the epidermis; a middle layer of tougher connective tissue, hair follicles, and glands called the dermis; and the inner layer, the hypodermis, which is mostly fat and connective tissue that supports the skin's structure and attaches it to muscles.
