A Greeting From Your Humanist Chaplain

Dear Tufts Community,

Our bodies are once again adjusting to the cycle of life in the spring. Perhaps we feel more energized, enjoying longer days of sunlight, and afternoons of the Prez Lawn with friends. And yet, as spring begins, we are simultaneously already preparing for next semester – choosing classes, planning events and programs, deciding about what comes next. In this way, we continue to experience both times of pause and orientation to what’s to come.

I recall *In Living Memory: A Concert of Stories and Songs* that occurred this past fall. This offering emerged in 2021 as an act of love towards greater inclusion, celebration, and representation of stories, songs, and *altares* shared by students from the SMFA, Latinx Center, and the University Chaplaincy. Planning for this event starts in the summer, a seed planted under the warm sun that doesn’t flourish until late fall.

What new things would you like to discover, deepen, or even challenge within yourself during this summer? What seeds are you planting now that will flourish later, and how can you give those seeds the best ecosystem possible?

For me, I will write most of my dissertation chapters on Afro-Caribbean subjectivities and spiritualities, as well as prepare to be a visiting lecturer at the ExCollege with the class "Humanism for Everyday Life." I know I will need time and space to write, as well as catch up on some of the books that I have acquired over this past year and actually read them for pleasure.
Sometime this spring, consider your fall self and when making decisions and/or choosing what to allow into your life. Think about how you want to water, soil, nurture, pruning, or even replanting the seeds that will soon be the garden of your life.

In growth and opportunities,

Anthony Cruz Pantojas
Humanist Chaplain
