Contents of this Month’s Update
November

EduTech has compiled a list of higher ed IT influencers who are using quantitative tools to assist criminal justice practitioners in policy making for combating human trafficking networks.

The Transition Advisory Board met for the first time on November 5, 2020, to discuss the center’s strategic direction moving forward, to align its mission with the Department of Homeland Security’s mission, and to determine how CINA could best support the Department’s priorities, other government entities with potential common interests.

The On Hybrid course is open to all higher ed institutions, allowing them to introduce a broad gamut of topics regarding hybrid learning, and offering the opportunity to explore best practices, trends, and innovative solutions.

The Transition Advisory Board meeting provided a wealth of ideas, directions, and possible industry and commercialization paths.
