CINA Research Student Awarded Fellowship To Support Research in Disrupting Human Trafficking Networks

We are pleased to announce that Daniel Kosmas, a senior at Rensselaer Polytechnic Institute, has been awarded the Trafficking Networks Fellowship. The three-year award will support Kosmas’ research in the development of a new network interdiction framework that will be used to disrupt networks of human traffickers. Kosmas is exploring how to model and disrupt human trafficking with a goal of developing a new approach to understanding human trafficking networks. His work will expand upon network interdiction models to appropriately model the dynamic and evolving nature of human trafficking networks.

NEWS

CINA Welcomes 2020-21 Open OPP White Paper Submissions

CINA, the Center for Innovation in National Security at George Mason University, is now accepting white paper submissions for the 2020-21 academic year. The open OPP white paper submission period is designed to encourage all members of the public to consider and contribute to the research agenda of the Center.
