Fall 2019 Department Newsletter
Volume 6, Issue 2

A Message from the Department Chair, Professor Suzanne Boyd

The end of the semester is a time of high-stakes. Instructors may be looking forward to getting their hands (and maybe the students) off campus, so their design grades then take a well-deserved break. They may be happily planning holiday events and/or traveling. For students (both undergraduate and graduate), the end of term is likely a time of high-stakes, at the calibration of a funny remover. Some of you will not be finishing your class successfully despite their efforts.

This next couple of weeks, likely to take their course one moment at a time, as they try to remember to try to remember the other human beings in their classroom and their lives beyond the classroom. A reminder: If you are travelling or plan to travel in the Spring semester, please be sure to follow the UWM Travel Guidelines.

As a reminder: If you are travelling or plan to travel in the Spring semester, please be sure to follow the UWM Travel Guidelines.

Our department has the almost unique opportunity to impact nearly every UWM student. On the whole we have developed a pretty positive reputation on campus, as caring educators. I frequently get positive feedback on our evaluations, so please take them seriously.

Looking forward to seeing you all in 2020!

Best,
Suzanne Boyd
