A Message from the Department Chair, Professor Suzanne Boyd

The end of the semester is a time of high-stakes. Instructions may be lacking, finding their ways often a bit of disorientation, as they can design grades then take a well-deserved break. They may be highly planning holiday events and/or travel. For students (both undergraduate and graduate), the end of term is likely a time of high-stakes, at the culmination of a busy semester. Some of these will not be finishing their class successfully despite their efforts.

This next couple of weeks, take the time to remember the other human beings being dealing with a whole host of problems most of which I’m totally unaware. Many of our students have financial insecurities or family complications making final exams and the learning holiday experience extra stressful.

Our department has what is perhaps an unique opportunity to impact nearly every UW student. On the whole we have developed a pretty positive reputation on campus, as caring educators. I frequently get positive stories from our students, every day all of the fall semester....and request that, in this season of high and low spirits, you continue to see your students each as unique human beings, struggling yet full of potential, and strive to treat each of them, and yourself, with compassion. This next couple of weeks, take the time to see your students each as unique human beings, struggling yet full of potential, and strive to treat each of them, and yourself, with compassion.

Looking forward to seeing you all in 2020!

Best,
Suzanne Boyd
