Dear Tufts Community,

At this point in the year, as we begin to look towards the semester’s end, it is the perfect time to consider whether you wish to fit a spiritual retreat or work-study into your summer plans. Retreat is a practice of purposeful separation, usually involving leaving the physical space of your daily life, taking time to be by yourself or with others.

A Greeting From Your Buddhist Chaplain
others on retreat, and with the intention of rest and contemplation. For example, above is a photo of the Tufts
Buddhist Mindfulness Sangha on retreat. We spent a weekend at a Buddhist monastery in Rhode Island. Over
the weekend, we spent time in nature, created art, journaled, engaged in dialogue and meditated.

By creating space for contemplation, we balance academic knowledge with the “not knowing” of spiritual growth.
Knowledge fills the mind with information; spiritual growth creates the space for that information to become
wisdom. By dedicating retreat time to creating this space within, we are able to respond to our studies-- and all of
life-- with greater clarity, energy, and resiliency. It is possible to find many retreats-- as well as retreat
scholarships-- that may expand your horizons and provide opportunities for spiritual growth. Let me offer a few
tips for your consideration:

1) Retreats involve a stepping outside of our busy lives in order to cultivate our inner life. Retreats set in nature
will make it more possible for the nervous system to unwind, so that the full measure of stillness, silence and
spaciousness that is the essence of retreat can be experienced.

2) Before going on retreat, take some time to tie up loose ends so that you can be fully present; let your family and
friends know you are going away so that they do not worry.

3) On the retreat, give yourself time to decompress. Sometimes boredom, aversion, restlessness or doubt arise.
However, if you continue to be present, unexpected epiphanies and moments of beauty will also visit, and you
will experience a new level of intimacy with yourself.

Tufts chaplains can offer valuable guidance in selecting the retreat setting that is the best fit for you. Many of us
also offer retreats for students within our communities: these will resume next fall. Consider prioritizing restoration
for even a short amount of time for yourself in this upcoming season.

Metta and best wishes,

EXP-0008-F: Humanism for Everyday Life (In-Person; 3 credits, Letter-graded)
Wednesdays, 6:30 p.m. - 9:00 p.m.

How did Humanism develop? What are the values that inhere a Humanist community?
This seminar is an introduction to Humanism, a dynamic tradition, philosophy, and lifestance.
Students in this course will read diverse texts that address genealogies of Humanist thought, the
human condition, and the possibilities and challenges of realizing a Humanism for all. We will
examine Humanist orientations from marginalized voices and subjectivities. Throughout the
course, we will address questions such as: What does it mean to be? How might a Humanist
orientation respond to obligations to self, other, and the world, especially during this time of
“post-truth.” Humanist Chaplain Anthony Cruz Pantojas (they/he) will be leading the class; they have a
background in inter-religious education and pastoral/spiritual care. Their queer Afro-Boricua identity
also deeply informs their engagement with ethics and relationality. They are pursuing a PhD in Cultural
Studies at Universidad Ana G. Méndez- Gurabo, Puerto Rico, with research interests in
Caribbean epistemologies and decolonial thought.
