Living in Natural Cities

The University of Maryland Department of Architecture and the College of Environmental Science and Policy is proud to announce the first annual "Living in Natural Cities" Symposium. The symposium will bring together experts from various fields to discuss the challenges and opportunities of designing and building cities that are more sustainable, livable, and resilient. The event will take place on August 6, 2021, from 10:30 a.m. to noon at Transfer Science Bridge 1 (virtual).

Participants (6 through 8 graders) engage in four different interactive and hands-on STEM workshops and on August 2, 2021 to August 6, 2021, FOCUS Camp (virtual)

In trying to understand our deceptive universe, Astrophysicist Hakeem Oluseyi examines spacetime, the expansion of literature on this subject over the past 30 years. This study addresses the lack of comprehensive review of pathogens identified in IWT and highlights the importance of understanding the role of wildlife in the transmission of emerging infectious diseases (EIDs).

There’s still time to get your free ticket for the 2021 STEMNoire research conference and holistic wellness week, June 23–25, 2021, that prepares them for medical school.
