In my younger days, I used to run long distance: two Boston Marathons, one New York Marathon, and one Los Angeles Marathon, to name a few. I know well that a runner needs to take in a big breath before they start their next lap of the race. And so do we.

Let's face it—2020 has been a looooonng year. Many of you haven't seen a vacation day since before spring break and have been juggling work/family/health in unprecedented ways for a while now. We are thankful for your efforts, believe me. Our students are still learning and inspired. Our researchers press on and make new discoveries. And we continue to ignite the spark of scientific discovery throughout our communities. Despite the enormous challenges, it's been a very productive year.
Physics and Astronomy researcher helps lead the search for new exoplanets

by John Hollis

Department of Physics and Astronomy assistant professor Peter Plavchan is part of a team of scientists running a global network of telescopes dedicated to the confirmation and validation of exoplanets in our galaxy.

Mason scales up testing efforts and needs lab support

As Mason ramps up its COVID-19 testing, there is a need to recruit energetic and qualified individuals to administer COVID-19 testing and/or conduct proteomic research. Please share this opportunity within your network with those who may be interested.

Chemistry student among top Virtual Celebration of Student
Scholarship presentations

Congratulations to chemistry major, Christopher Veatch, for receiving a top presentation honor at OSCAR's Virtual Celebration of Student Scholarship. Be sure to check out Christopher's presentation as well as the other 23 College of Science students who participated.

IN THE NEWS

The Times of India features Mason Science PhD alumnus

The Times of India recently featured Department of Environmental Science and Policy and Atmospheric Oceanic and Earth Science dual PhD alumnus Advait Jukar who studies the impacts of human hunting and climate change on the megafaunal extinction in India.

Happening at Mason

Wishes of Peace, Love, and Joy to Mason Nation

Watch this year's holiday greeting from George Mason University and President Gregory Washington.

Events
ICAP Informational Webinar on Federal Grant Funding
December 17, 2020 | 6 p.m.

The Innovation Commercialization Assistance Program (ICAP) will be hosting an informational webinar on federal grant funding, specifically SBIR and STTRs. If you are interested in attending this webinar, please email ICAP Director, Josh Green.

Virtual Winter Solstice Celebration
December 18, 2020 | 7:30 to 11 p.m.

Celebrate one of the longest nights of the year with a virtual edition of the Smithsonian Winter Solstice Celebration, including a live tour of the winter night sky with staff from Mason’s Observatory.

NSF’s Smart and Connected Communities Program Roundtable
Tuesday, January 5, 2021 | 1:30 to 3 p.m.

To support team formation and proposal development for NSF’s Smart and Connected Communities Program, ISE will host a roundtable discussion. RSVP prior to attending by emailing mise@gmu.edu.
